Northwest Youth Volleyball Frequently Asked Questions

Who should register?

Registration is for girls and boys in 6th through 8th grade. The typical age range is from 11 to 14.

How are teams chosen?

Players are assessed prior to season start and placed on teams to keep them as fairly balanced as possible. An effort is made to have players from the same schools placed on the same team.

Can my child play on the same team with friends?

Attempts for special requests may be possible but can not be guaranteed until assessments are complete.

Can I request a coach?

Attempts for special requests may be possible but cannot be guaranteed. If you do have a special request please contact the league administrator.

Do I have to live in Fairfax County to participate?

No. Players from other counties may participate as long as it does not displace a Fairfax County player.

What does the fee include?

The fee includes regular season games as well as an end of season tournament and uniform shirt.

How can I volunteer to coach?

If you are interested in coaching please contact the league administrator. Due to our insurance carrier requirement each coach over the age of 18 must submit to a background check. There is no fee for the background check.

How can I volunteer to referee?

Please contact the league administrator.

Do I need to be a certified referee?

No. Certification is preferable but not required. All referee candidates who are not certified must participate in a pre-season training session conducted by the NYV.
